PROFILE

I am a seasoned web developer with expertise in HTML, CSS, JavaScript, React, and Next.js. My proficiency extends to APIs, data structures, and Git/GitHub, ensuring seamless development and version control. With an active LinkedIn profile reflecting my commitment to excellence, I specialize in crafting engaging, user-centric web experiences. Let's collaborate to transform your ideas into captivating online solutions that drive success.

WORK EXPERIENCE

Front-End Web Developer

TechnoJin Soln. 2021-2022

- Developed responsive and visually appealing web interfaces using HTML, CSS, and Bootstrap, ensuring cross-browser compatibility and optimal user experience.
- Implemented dynamic and interactive features using JavaScript, enhancing website functionality and user engagement.
- Collaborated closely with design teams to translate mockups and wireframes into pixel-perfect web designs.
- Utilized Bootstrap's grid system and components to streamline the front-end development process and maintain design consistency.

Full-Stack Web Developer

Tech Step 2022-2023

- Developed dynamic web applications using PHP and MySQL, ensuring robust database functionality and seamless data retrieval.
- Leveraged XAMPP as a local development environment to create, test, and deploy PHP-based web projects efficiently.
- Implemented interactive and responsive user interfaces with React and Next.js, enhancing user engagement and overall user experience.
- Utilized JavaScript to add dynamic behavior and functionality to web applications, enhancing interactivity and user engagement.
- Designed modern and visually appealing UIs with Tailwind CSS, streamlining the front-end development process and ensuring a consistent design system.

Co-Founder

HelloDev (Co-founder) 2023- onwards

- Contributing to the development of HelloDev's tech community platform, encompassing job listings, news articles, chat rooms, and real-time framework updates.
- Collaborating with the development team to create dynamic and user-friendly interfaces for the HelloDev website using React, Next.js, and Tailwind CSS.
- Integrating chat room functionality to facilitate real-time communication and knowledge sharing among community members.
- Managing and optimizing the database infrastructure, ensuring efficient data retrieval and storage using MySQL.
- Implementing user profiles and authentication features to enhance the personalization and security of the HelloDev platform.

PROJECTS

. Modern Landing Pages with React and Tailwind CSS

- Developed a series of modern and visually appealing landing pages using React and Tailwind CSS.
- Implemented responsive designs to ensure optimal user experiences across various devices and screen sizes.
- Leveraged the power of React's component-based architecture for efficient development and updates.

CGPA Calculator for Comsats

- Designed and built a comprehensive CGPA (Cumulative Grade Point Average) calculator for students.
- Developed a user-friendly interface for inputting and calculating CGPAs, streamlining academic record management.
- Ensured accuracy and reliability in GPA calculations for improved academic planning.

Luminous Text Manipulation Tool

- Created the "Luminous Text" project, a versatile text manipulation tool.
- Features include the ability to change text case (uppercase/lowercase), apply bold formatting, and remove spaces.
- Designed for enhanced text formatting and content editing efficiency.

To-Do List Application

- Add tasks to the list with user-friendly input fields.
- Edit existing tasks for efficient task updates.
- Delete tasks to declutter your to-do list.
- Utilizes local storage for data persistence, ensuring your tasks are saved even after closing the application.
